

220V Voltage Diesel Powered Water Pump Unit With Electric Start

Our Product Introduction

more products please visit us on enginedieselgenerator.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Water Pump Generator Set
- Certification: ISO9001
- Model Number: FM50GF
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Plywood Package
- Delivery Time: 1-2week
- Payment Terms: FOB T/T
- Supply Ability: 1000

Product Specification

- Warranty: 1 Year
- Weight: 500kg
- Application: Irrigation, Firefighting, Etc.
- Power: 10kW
- Certificate: ISO9001
- Cooling System: Water Cooled
- Speed: 3000rpm
- Dimension: 1000*600*800mm
- Highlight: **220V diesel powered Water Pump ,
Electric Start diesel powered Water Pump**

Product Description

Product Description:

This Water Pump Generating Set is an electrical start system powered by a 220V, 50Hz rating for supplying a 3000rpm speed. This Generating Set utilizes diesel fuel to provide a reliable and efficient source of power. This Generating Set is designed with safety and durability in mind. Generating Set is the perfect choice for any application that requires a reliable source of power. Generating Set is also easy to operate and maintain, ensuring that it can be used for a long time. With its strong and robust construction, the Generating Set is sure to provide you with a reliable and powerful source of power.

Features:

Product Name: Water Pump Generator Set
Generating Set Power: 10kW
Cooling System: Water Cooled
Warranty: 1 Year
Weight: 500kg

Applications:

The Water Pump Generator Set is an ideal choice for a variety of applications. It has a brand name of Water Pump Generator Set and the model number is FM50GF. This product is manufactured in China and is certified with ISO9001. The minimum order quantity is 1, and the price is 1000USD. The product is packaged in plywood package and the delivery time is 1-2 weeks. The payment terms are FOB T/T, and the supply ability is 1000. The fuel type is diesel and the frequency is 50Hz. It has an electric start mode and is certified with ISO9001. This Water Pump Generator Set is suitable for different applications such as irrigation, firefighting, and other uses. It comes with a mobile trailer, which makes it easy to transport the generator to different places. This generator set is reliable and efficient, and it is perfect for both residential and commercial use. The generator set also features noise reduction technology, which ensures a quiet operation. With its advanced safety features, it ensures that the generator operates safely and effectively. The Water Pump Generator Set is a great investment, as it helps you save time and money. It is also easy to maintain, and it is designed for durability and long service life. With its superior performance and reliable power supply, it is an ideal choice for many applications.

Customization:

Brand Name: Water Pump Generator Set
Model Number: FM50GF
Place of Origin: CHINA
Certification: ISO9001
Minimum Order Quantity: 1
Price: 1000USD
Packaging Details: Plywood Package
Delivery Time: 1-2week
Payment Terms: FOB T/T
Supply Ability: 1000
Product Name: Water Pump Generator Set
Power: 10kW
Warranty: 1 Year
Start Mode: Electric
Noise Level: ≤75dB
Keywords: Water Pump Generator Set, Water Pump Use Generator with Mobile Trailer, Water Pump Use Generator with Mobile Trailer

Support and Services:

Water Pump Generator Set Technical Support and Service

We provide comprehensive technical support and services for our water pump generator sets. We offer technical advice, maintenance, repair, and troubleshooting services, as well as a wide range of spare parts. Our professional engineers are highly experienced in the installation, operation, and maintenance of water pump generator sets, and are available 24/7 to answer any queries. We also offer extended warranties for our water pump generator sets, giving you the peace of mind that your product is covered and that we will be there to help in the event of any issue.

Packing and Shipping:

Packaging and Shipping

Water Pump Generator Sets are typically delivered in a cardboard box with both the pump and generator components securely packaged within. The components are cushioned with foam, bubble wrap, and/or other protective materials to limit vibration and shock during transportation. Depending on the size and weight of the order, the packages are sent via UPS, FedEx, DHL, or other courier services. The packages are

also marked with labels that contain the necessary information, including sender and receiver contact information, the contents of the package, and a unique tracking number.

FAQ:

Q: What is the Brand Name of this product?

A: The Brand Name of this product is Water Pump Generator Set.

Q: What is the Model Number of this product?

A: The Model Number of this product is FM50GF.

Q: Where is this product made from?

A: This product is made in China.

Q: What is the Certification of this product?

A: This product is certified with ISO9001.

Q: What is the Minimum Order Quantity of this product?

A: The Minimum Order Quantity of this product is 1.

Product Description

Diesel pump

Diesel engine water pump to denote powered by diesel engines, pumps by elastic coupling driven by diesel engine, with advanced and reasonable structure, high efficiency, good cavitation performance, little vibration, low noise, smooth operation, reliable and convenient installation. Type power diesel engine driven pump (or fire pump group) by horizontal centrifugal pump and diesel engine, electrical instruments, such as equipment, installed in a public security closely chassis, through the line of control and signal lines connected to the electric cabinet.

Use

Used for fire fighting standby main pump, called XBC diesel fire pump;

Used for industrial emergency use, such as boiler feed water, high temperature feed water, etc.

ZCSB is used for agricultural irrigation in areas without power supply.

Operation requirements

When preparing to start the diesel engine water pump for the first time, check the installation of all equipment and start the engine according to the following requirements:

Inject the engine oil into the diesel engine and pump suspension from the oil inlet and check the oil level with the oil gauge to meet the required height.

Add cooling water from the expansion tank to the diesel engine, and it is advisable to increase the water level to 2/3 of the expansion tank height.

Install diesel fuel in the fuel tank and press the exhaust manual pressure pump to let the diesel oil enter the machine through the filter.

Connect the inlet and outlet pipes and gate valves of the water pump, close the gate valves of the outlet pipes, the outlet pressure gauges and the vacuum pressure gauges;

Water is pumped or vacuumed into water pumps and inlet pipes, and the air inside is emptied.

Open the external circulating cooling water valve;

At the inlet valve fully open, the water valve closed cases, starting diesel pumps, when the diesel engine reaches normal speed, then gradually open the valve outlet pipe road, and adjust to the desired operating mode.

8inch 12 Inch Water Pump with Diesel Engine Generator R Set
