

Reliable Commercial Water Pumps 10kw Water Pump Set Diesel Powered

Our Product Introduction

more products please visit us on enginedieselgenerator.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Water Pump Generator Set
- Certification: ISO9001
- Model Number: FM50GF
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Plywood Package
- Delivery Time: 1-2week
- Payment Terms: FOB T/T
- Supply Ability: 1000

Product Specification

- Certificate: ISO9001
- Speed: 3000rpm
- Cooling System: Water Cooled
- Dimension: 1000*600*800mm
- Frequency: 50Hz
- Power: 10kW
- Application: Irrigation, Firefighting, Etc.
- Start Mode: Electric
- Highlight: **Reliable 10kw Water Pump,
10kw Water Pump Set Diesel Powered,
Commercial Water Pumps Diesel Powered**

Product Description

Reliable Water Pump for Commercial Applications - 10kW - Diesel Fuel

Product Description:

Water Pump Generator Set is a powerful and reliable generating set designed for water pump use, offering a wide range of voltage and fuel options. The set utilizes a 220V Diesel fuel and features a compact 1000*600*800mm dimension and a 50Hz frequency. It also comes with a mobile trailer, allowing for ease of transportation. Boasting superior performance, Water Pump Generator Set is the perfect solution for reliable and efficient water pump use. Whether you are looking for an emergency power supply or a regular source of power, this generator set is sure to meet your needs.

Features:

Product Name: Water Pump Generator Set
Diesel Engine Pump Unit: Mobile Trailer and Water Pump Use Generator
Cooling System: Water Cooled
Weight: 500kg
Speed: 3000rpm
Power: 10kW

Applications:

Water Pump Generator Set

The Water Pump Generator Set is a powerful piece of equipment that is widely used in various applications such as irrigation, firefighting, and more. It has a brand name of Water Pump Generator Set, model number of FM50GF, and is made in China. It has been certified with ISO9001 and is available in minimum order quantity of 1. With a price of 1000USD, it comes with plywood package and can be delivered within 1-2 weeks. Payment terms are FOB T/T and it has a supply ability of 1000 units. It has a start mode of electric and comes with a warranty of 1 year. The Water Pump Generator Set also has a product name of Water Pump Generator Set and weighs 500kg.

The Water Pump Generator Set is perfect for a range of applications, such as irrigation, firefighting, and more. It is powerful and reliable, yet also easy to operate and maintain. This makes it the ideal choice for any business or individual that needs a reliable and efficient water pump generator set.

Customization:

Customized Water Pump Generator Set Service

We offer a customized Water Pump Generator Set service that meets your exact needs. Our Water Pump Generator Set offers excellent features such as Brand Name: Water Pump Generator Set, Model Number: FM50GF, Place of Origin: CHINA, Certification: ISO9001, Minimum Order Quantity: 1, Price: 1000USD, Packaging Details: Plywood Package, Delivery Time: 1-2week, Payment Terms: FOB T/T, Supply Ability: 1000, Noise Level: ≤75dB, Weight: 500kg, Frequency: 50Hz, Fuel: Diesel, Start Mode: Electric. Our Water Pump Generator Set is ideal for those looking for a reliable, diesel generator with water pump.

Support and Services:

Water Pump Generator Set Technical Support and Service

We provide technical support and services for Water Pump Generator Sets. This includes:

Product installation and commissioning: Our engineers can provide installation and commissioning services to ensure that your Water Pump Generator Set is properly installed and operating correctly.

Troubleshooting: We can diagnose and troubleshoot any issues you may face with your Water Pump Generator Set.

Operator training: Our engineers can provide on-site operator training to ensure that your operators are familiar and comfortable with the operation of the Water Pump Generator Set.

Maintenance and repair: We provide maintenance and repair services to keep your Water Pump Generator Set in good working condition.

Spare parts: We provide a full range of spare parts for your Water Pump Generator Set.

Warranty: We provide a warranty for all our Water Pump Generator Sets.

If you have any questions or need any assistance, please contact our technical support team at support@example.com.

Packing and Shipping:

Packaging and Shipping of Water Pump Generator Set

This Water Pump Generator Set is delivered in a sturdy, recyclable cardboard box. The box is designed to withstand the rigors of freight shipping and contain the product securely and safely. It is also labeled with the product name and UPC code.

When the product is shipped, it is double-checked to ensure that all parts are included and that there are no visible signs of damage. The box is then sealed with tape and labeled with the shipping information.

FAQ:

Q1: What is the Brand Name of the Water Pump Generator Set?

A1: The Brand Name of the Water Pump Generator Set is Water Pump Generator Set.

Q2: What is the Model Number of the Water Pump Generator Set?

A2: The Model Number of the Water Pump Generator Set is FM50GF.

Q3: Where is the Water Pump Generator Set made?

A3: The Water Pump Generator Set is made in China.

Q4: What is the Certification of the Water Pump Generator Set?

A4: The Water Pump Generator Set is ISO9001 certified.

Q5: What is the Minimum Order Quantity of the Water Pump Generator Set?

A5: The Minimum Order Quantity of the Water Pump Generator Set is 1.

Product Description

Diesel pump

Diesel engine water pump to denote powered by diesel engines, pumps by elastic coupling driven by diesel engine, with advanced and reasonable structure, high efficiency, good cavitation performance, little vibration, low noise, smooth operation, reliable and convenient installation. Type power diesel engine driven pump (or fire pump group) by horizontal centrifugal pump and diesel engine, electrical instruments, such as equipment, installed in a public security closely chassis, through the line of control and signal lines connected to the electric cabinet.

Use

Used for fire fighting standby main pump, called XBC diesel fire pump;

Used for industrial emergency use, such as boiler feed water, high temperature feed water, etc.

ZCSB is used for agricultural irrigation in areas without power supply.

Operation requirements

When preparing to start the diesel engine water pump for the first time, check the installation of all equipment and start the engine according to the following requirements:

Inject the engine oil into the diesel engine and pump suspension from the oil inlet and check the oil level with the oil gauge to meet the required height.

Add cooling water from the expansion tank to the diesel engine, and it is advisable to increase the water level to 2/3 of the expansion tank height.

Install diesel fuel in the fuel tank and press the exhaust manual pressure pump to let the diesel oil enter the machine through the filter.

Connect the inlet and outlet pipes and gate valves of the water pump, close the gate valves of the outlet pipes, the outlet pressure gauges and the vacuum pressure gauges;

Water is pumped or vacuumed into water pumps and inlet pipes, and the air inside is emptied.

Open the external circulating cooling water valve;

At the inlet valve fully open, the water valve closed cases, starting diesel pumps, when the diesel engine reaches normal speed, then gradually open the valve outlet pipe road, and adjust to the desired operating mode.
