

Electric Start Diesel Driven Water Pump Set 500kg High Capacity

Our Product Introduction

more products please visit us on enginedieselgenerator.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Water Pump Generator Set
- Certification: ISO9001
- Model Number: FM50GF
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Plywood Package
- Delivery Time: 1-2week
- Payment Terms: FOB T/T
- Supply Ability: 1000

Product Specification

- Speed: 3000rpm
- Fuel: Diesel
- Certificate: ISO9001
- Start Mode: Electric
- Dimension: 1000*600*800mm
- Weight: 500kg
- Warranty: 1 Year
- Product Name: Water Pump Generator Set
- Highlight: **High Capacity diesel driven water pump, diesel driven water pump 500kg**

Product Description

Electric Start Water Pump Generator Set 500kg with High Capacity

Product Description:

Our Water Pump Generator Set is a perfect combination of water pump and generator, it is designed for those who need a reliable and powerful source of energy. This Water Pump Generator Set is designed with a trailer set, making it easy to move and transport. It also has a weight of 500kg and a noise level of ≤ 75 dB, making it quiet and efficient. With a voltage of 220V and an Electric start mode, this Water Pump Generator Set is designed to provide efficient and reliable power for your water pump needs.

Our Water Pump Generator Set is perfect for a variety of different applications, such as agricultural, industrial, and commercial water pump use. It is also great for emergency situations and can provide a reliable and powerful source of energy. This Water Pump Generator Set is designed with a mobile trailer set, making it easy to move and transport. It is designed to be reliable and efficient, making it perfect for any water pump needs.

Our Water Pump Generator Set is perfect for any water pump use. With its reliable and powerful energy supply, it is sure to meet your water pump needs. This Water Pump Generator Set is designed to be quiet and efficient, with a weight of 500kg and a noise level of ≤ 75 dB. With a voltage of 220V and an Electric start mode, this Water Pump Generator Set is designed to provide efficient and reliable power for your water pump needs.

Features:

Generating Set: Water Pump Generator Set

Application: Irrigation, Firefighting, Etc.

Cooling System: Water Cooled

Weight: 500kg

Power: 10kW

Warranty: 1 Year

Applications:

Water Pump Generator Set, with Brand Name "Water Pump Generator Set", Model Number FM50GF, is a generating set with water pump use. It is certified with ISO9001, and has a minimum order quantity of 1. The price is 1000USD, with plywood package for delivery. The delivery time is 1-2 weeks, with payment terms FOB T/T. The supply ability is 1000, with weight of 500kg, and dimension of 1000*600*800mm. The speed is 3000rpm, and the cooling system is water cooled.

The Water Pump Generator Set is perfect for applications where a mobile trailer is required, such as on construction sites or in remote locations. It is also ideal for emergency power supply, such as in case of power outages, and can be used for both drinking water and irrigation purposes. It is reliable, efficient, and easy to operate and maintain.

The Water Pump Generator Set is highly recommended for its high performance and long-lasting durability. It is designed for maximum efficiency and minimum downtime, making it a great choice for businesses and households alike. It is a great choice for those who need reliable power supply in any environment.

Customization:

Water Pump Generator Set

Brand Name: Water Pump Generator Set

Model Number: FM50GF

Place of Origin: CHINA

Certification: ISO9001

Minimum Order Quantity: 1

Price: 1000USD

Packaging Details: Plywood Package

Delivery Time: 1-2week

Payment Terms: FOB T/T

Supply Ability: 1000

Fuel: Diesel

Cooling System: Water Cooled

Power: 10kW

Dimension: 1000*600*800mm

Start Mode: Electric

Our Water Pump Generator Set is a Diesel Generator with water pump, certified with ISO9001 and electric start. It has 10kW power and 1000*600*800mm dimension. The Generating Set is designed for reliable performance and low maintenance cost. It is suitable for a wide range of applications, such as backup power supply and home use.

Support and Services:

Technical Support and Service for Water Pump Generator Set

We offer comprehensive technical support and service for water pump generator sets. Our team of experienced technicians are available 24/7 to provide expert advice and assistance. We provide phone and email support, as well as on-site visits for more complex issues.

Our technicians have extensive knowledge of water pump generator sets, and can help diagnose and solve any issues you might have. We can also provide expert advice on maintenance and repair, ensuring your water pump generator set runs smoothly and efficiently. We also offer a range of maintenance and repair services, including regular servicing, parts replacement, and troubleshooting. We can provide these services quickly and efficiently, ensuring your water pump generator set is running smoothly. For more information on our technical support and service for water pump generator sets, please contact us today.

Packing and Shipping:

Packaging and Shipping

Water Pump Generator Sets are securely packaged in a cardboard box with foam inserts for extra protection. The box is strong enough to protect the product during transport. The sets are shipped via courier services or freight forwarders.

FAQ:

FAQs: Water Pump Generator Set

Q1: What is the Brand Name of this product?

A1: The Brand Name of this product is Water Pump Generator Set.

Q2: What is the Model Number of this product?

A2: The Model Number of this product is FM50GF.

Q3: Where is this product made?

A3: This product is made in China.

Q4: What is the Certification for this product?

A4: This product is certified with ISO9001.

Q5: What is the Minimum Order Quantity for this product?

A5: The Minimum Order Quantity for this product is 1.

Product Description

Diesel pump

Diesel engine water pump to denote powered by diesel engines, pumps by elastic coupling driven by diesel engine, with advanced and reasonable structure, high efficiency, good cavitation performance, little vibration, low noise, smooth operation, reliable and convenient installation.

Type power diesel engine driven pump (or fire pump group) by horizontal centrifugal pump and diesel engine, electrical instruments, such as equipment, installed in a public security closely chassis, through the line of control and signal lines connected to the electric cabinet.

Use

Used for fire fighting standby main pump, called XBC diesel fire pump;

Used for industrial emergency use, such as boiler feed water, high temperature feed water, etc.

ZCSB is used for agricultural irrigation in areas without power supply.

Operation requirements

When preparing to start the diesel engine water pump for the first time, check the installation of all equipment and start the engine according to the following requirements:

Inject the engine oil into the diesel engine and pump suspension from the oil inlet and check the oil level with the oil gauge to meet the required height.

Add cooling water from the expansion tank to the diesel engine, and it is advisable to increase the water level to 2/3 of the expansion tank height.

Install diesel fuel in the fuel tank and press the exhaust manual pressure pump to let the diesel oil enter the machine through the filter.

Connect the inlet and outlet pipes and gate valves of the water pump, close the gate valves of the outlet pipes, the outlet pressure gauges and the vacuum pressure gauges;

Water is pumped or vacuumed into water pumps and inlet pipes, and the air inside is emptied.

Open the external circulating cooling water valve;

At the inlet valve fully open, the water valve closed cases, starting diesel pumps, when the diesel engine reaches normal speed, then gradually open the valve outlet pipe road, and adjust to the desired operating mode.

8inch 12 Inch Water Pump with Diezel Engine Generator R Set
