

Trailer Water Pump Unit ISO9001 Certified

Our Product Introduction

more products please visit us on enginedieselgenerator.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Water Pump Generator Set
- Certification: ISO9001
- Model Number: FM50GF
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Plywood Package
- Delivery Time: 1-2week
- Payment Terms: FOB T/T
- Supply Ability: 1000

Product Specification

- Frequency: 50Hz
- Weight: 500kg
- Voltage: 220V
- Speed: 3000rpm
- Start Mode: Electric
- Warranty: 1 Year
- Cooling System: Water Cooled
- Product Name: Water Pump Generator Set
- Highlight: **travel trailer water pump ISO9001 ,
Water Pump Unit ISO9001**

Product Description

Product Description:

The water pump generator set is a perfect combination of water pump and generating set, which is designed to provide reliable and efficient power for many applications. It is a high-quality product, with a dimension of 1000*600*800mm, a water cooled cooling system, a frequency of 50Hz, an ISO9001 certificate and a noise level of ≤ 75 dB. This water pump generator set is easy to install and maintain, making it an ideal choice for any industrial application.

The water pump generator set is designed for maximum efficiency and reliability. It is made of high-quality materials that are durable and long-lasting. This water pump generator set is equipped with a high-powered motor and a reliable generator. With its advanced technology, this generator set can provide reliable and efficient power for many applications that require a reliable and efficient energy source.

The water pump generator set is designed for maximum performance and efficiency. It is equipped with the latest technology, which provides a high-performance and reliable power supply. This generator set is also designed to be easy to install and maintain, making it ideal for any industrial application. With its advanced features, this generator set is perfect for any application that requires a reliable and efficient energy source.

The water pump generator set is designed to meet the highest quality standards. It is certified with ISO9001 and has a noise level of ≤ 75 dB. This generator set is easy to install and maintain, making it a perfect choice for any industrial application. With its advanced technology, this generator set is a reliable and efficient power source.

Features:

Product Name: Water Pump Generator Set

Power: 10kW

Warranty: 1 Year

Start Mode: Electric

Cooling System: Water Cooled

Diesel Engine Pump Unit

Applications:

Water Pump Generator Set is a powerful and reliable diesel engine generating set with FM50GF model number and Water Cooled cooling system. It is widely used for many applications, such as irrigation, firefighting, etc. With advanced technology, it is certified with ISO9001 and has excellent performance. The product name is Water Pump Generator Set and it is manufactured by a well-known brand in China. Each unit is packed with plywood package, and the minimum order quantity is one. The price for each unit is 1000USD and the delivery time is 1-2 weeks. The payment terms is FOB T/T and the supply ability is 1000. It is a reliable and cost effective choice for your applications.

Customization:

Water Pump Generator Set

Brand Name: Water Pump Generator Set

Model Number: FM50GF

Place of Origin: CHINA

Certification: ISO9001

Minimum Order Quantity: 1

Price: 1000USD

Packaging Details: Plywood Package

Delivery Time: 1-2week

Payment Terms: FOB T/T

Supply Ability: 1000

Noise Level: ≤ 75 dB

Application: Irrigation, Firefighting, Etc.

Fuel: Diesel

Dimension: 1000*600*800mm

Power: 10kW

Special Features: Water Pump Use Generator with Mobile Trailer, water pump, Water Pump Use Generator with Mobile Trailer, diesel engine, FM50GF

Support and Services:

Water Pump Generator Set Technical Support and Services

We provide comprehensive technical support and services for Water Pump Generator Set to help ensure that you receive the most reliable performance from your product.

On-site product installation and commissioning

On-site operational troubleshooting and repair

Product training

Technical advice

Remote monitoring and diagnostics

Software and firmware updates

Parts and accessories

If you have any questions or concerns about your Water Pump Generator Set, please do not hesitate to contact us.

Packing and Shipping:

Water Pump Generator Set Packaging and Shipping:

The water pump generator set is stored in a strong carton box with sufficient cushioning materials to protect the set from any damage during the transportation.

The package will be reinforced with adhesive tapes, plastic straps, or stretch films to make sure that it won't be opened during the delivery.

We will use reliable shipping companies to ensure the safety and timeliness of the delivery.

FAQ:

Q1: What is the brand name of the Water Pump Generator Set?

A1: The brand name is Water Pump Generator Set.

Q2: What is the model number of the Water Pump Generator Set?

A2: The model number is FM50GF.

Q3: Where is the Water Pump Generator Set made?

A3: The Water Pump Generator Set is made in China.

Q4: Does the Water Pump Generator Set have an ISO9001 certification?

A4: Yes, the Water Pump Generator Set has an ISO9001 certification.

Q5: How many Water Pump Generator Sets can be purchased in one order?

A5: The minimum order quantity is 1 Water Pump Generator Set.

Product Description

Diesel pump

Diesel engine water pump to denote powered by diesel engines, pumps by elastic coupling driven by diesel engine, with advanced and reasonable structure, high efficiency, good cavitation performance, little vibration, low noise, smooth operation, reliable and convenient installation. Type power diesel engine driven pump (or fire pump group) by horizontal centrifugal pump and diesel engine, electrical instruments, such as equipment, installed in a public security closely chassis, through the line of control and signal lines connected to the electric cabinet.

Use

Used for fire fighting standby main pump, called XBC diesel fire pump;

Used for industrial emergency use, such as boiler feed water, high temperature feed water, etc.

ZCSB is used for agricultural irrigation in areas without power supply.

Operation requirements

When preparing to start the diesel engine water pump for the first time, check the installation of all equipment and start the engine according to the following requirements:

Inject the engine oil into the diesel engine and pump suspension from the oil inlet and check the oil level with the oil gauge to meet the required height.

Add cooling water from the expansion tank to the diesel engine, and it is advisable to increase the water level to 2/3 of the expansion tank height.

Install diesel fuel in the fuel tank and press the exhaust manual pressure pump to let the diesel oil enter the machine through the filter.

Connect the inlet and outlet pipes and gate valves of the water pump, close the gate valves of the outlet pipes, the outlet pressure gauges and the vacuum pressure gauges;

Water is pumped or vacuumed into water pumps and inlet pipes, and the air inside is emptied.

Open the external circulating cooling water valve;

At the inlet valve fully open, the water valve closed cases, starting diesel pumps, when the diesel engine reaches normal speed, then gradually open the valve outlet pipe road, and adjust to the desired operating mode.

8inch 12 Inch Water Pump with Diesel Engine Generator R Set
