

ISO9001 Certified Diesel Water Pump Generator 50Hz Water Cooled

Our Product Introduction

more products please visit us on enginedieselgenerator.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Water Pump Generator Set
- Certification: ISO9001
- Model Number: FM50GF
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Plywood Package
- Delivery Time: 1-2week
- Payment Terms: FOB T/T
- Supply Ability: 1000

Product Specification

- Dimension: 1000*600*800mm
- Certificate: ISO9001
- Application: Irrigation, Firefighting, Etc.
- Product Name: Water Pump Generator Set
- Voltage: 220V
- Cooling System: Water Cooled
- Start Mode: Electric
- Warranty: 1 Year
- Highlight: Diesel Water Pump Generator 50Hz,
ISO9001 Diesel Water Pump Generator

Product Description

ISO9001 Certified Water Pump Generator Set with Electric Start Mode - Frequency 50Hz

Product Description:

The Water Pump Generator Set is a powerful and reliable 10kW diesel generator unit that provides a range of applications, such as irrigation, firefighting, and more. It is equipped with a water-cooled cooling system and runs at a speed of 3000rpm. This diesel engine pump unit is designed to provide long-term service with its one-year warranty. It is perfect for water pumping applications, and its diesel engine generator ensures a reliable energy output.

Features:

Product Name: Water Pump Generator Set
Dimension: 1000*600*800mm
Application: Irrigation, Firefighting, Etc.
Speed: 3000rpm
Start Mode: Electric
Certificate: ISO9001
Generating Set: Diesel Generator with Mobile Trailer
Water Pump Use Generator: with Mobile Trailer

Applications:

Water Pump Generator Set

Water Pump Generator Set is a generating set supplied by a diesel generator from a leading generating set supplier. This set is certified by ISO9001 and has a noise level of ≤ 75 dB. It comes with a voltage of 220V and a fuel of diesel. It has a weight of 500kg and is packed in plywood package. It is mainly used for irrigation and firefighting and has a minimum order quantity of 1. The price is 1000USD and payment terms are FOB T/T with a delivery time of 1-2week and a maximum supplyability of 1000.

Brand Name: Water Pump Generator Set
Model Number: FM50GF
Place of Origin: CHINA
Certification: ISO9001
Minimum Order Quantity: 1
Price: 1000USD
Packaging Details: Plywood Package
Delivery Time: 1-2week
Payment Terms: FOB T/T
Supply Ability: 1000
Application: Irrigation, Firefighting, Etc.
Noise Level: ≤ 75 dB
Voltage: 220V
Fuel: Diesel
Weight: 500kg

Customization:

Water Pump Generator Set

Brand Name: Water Pump Generator Set
Model Number: FM50GF
Place of Origin: CHINA
Certification: ISO9001
Minimum Order Quantity: 1
Price: 1000USD
Packaging Details: Plywood Package
Delivery Time: 1-2week
Payment Terms: FOB T/T
Supply Ability: 1000
Dimension: 1000*600*800mm
Power: 10kW
Cooling System: Water Cooled
Warranty: 1 Year
Weight: 500kg

This Water Pump Generator Set is made from the highest quality materials with top-notch craftsmanship. It is certified ISO9001 and manufactured in China with a dimension of 1000*600*800mm and weight of 500kg. It has a power of 10kW and is water cooled. It is packaged in a durable Plywood Package and delivered within 1-2 week. It comes with a 1 year warranty and is available for a minimum order quantity of 1. The price is 1000USD and payment is accepted through FOB T/T.

Support and Services:

Water Pump Generator Set Technical Support and Services

We provide comprehensive technical support and services for Water Pump Generator Set, including:
Installation and commissioning of Water Pump Generator Set
Troubleshooting and repair of Water Pump Generator Set
Regular maintenance and servicing of Water Pump Generator Set
Spare parts and accessories supply for Water Pump Generator Set
Training and technical consultation for Water Pump Generator Set
If you have any questions or need more information, please contact us.

Packing and Shipping:

Packaging and Shipping

The Water Pump Generator Set is packaged in a sturdy cardboard box with foam inserts to protect the product when shipped. All packaging components are certified to meet international standard shipping requirements.
The product is shipped with a reliable carrier service, such as UPS, FedEx, or DHL, and is tracked to ensure timely delivery.

FAQ:

Q: What is the brand name of the Water Pump Generator Set?
A: The brand name of the Water Pump Generator Set is Water Pump Generator Set.
Q: What is the model number of the Water Pump Generator Set?
A: The model number of the Water Pump Generator Set is FM50GF.
Q: Where is the Water Pump Generator Set manufactured?
A: The Water Pump Generator Set is manufactured in China.
Q: What is the minimum order quantity for the Water Pump Generator Set?
A: The minimum order quantity for the Water Pump Generator Set is 1.
Q: What is the price of the Water Pump Generator Set?
A: The price of the Water Pump Generator Set is 1000USD.

Production Capacity	1000
---------------------	------

Diesel pump
Diesel engine water pump to denote powered by diesel engines, pumps by elastic coupling driven by diesel engine, with advanced and reasonable structure, high efficiency, good cavitation performance, little vibration, low noise, smooth operation, reliable and convenient installation.
Type power diesel engine driven pump (or fire pump group) by horizontal centrifugal pump and diesel engine, electrical instruments, such as equipment, installed in a public security closely chassis, through the line of control and signal lines connected to the electric cabinet.
Use
Used for fire fighting standby main pump, called XBC diesel fire pump;
Used for industrial emergency use, such as boiler feed water, high temperature feed water, etc.
ZCSB is used for agricultural irrigation in areas without power supply.
Operation requirements
When preparing to start the diesel engine water pump for the first time, check the installation of all equipment and start the engine according to the following requirements:
Inject the engine oil into the diesel engine and pump suspension from the oil inlet and check the oil level with the oil gauge to meet the required height.
Add cooling water from the expansion tank to the diesel engine, and it is advisable to increase the water level to 2/3 of the expansion tank height.
Install diesel fuel in the fuel tank and press the exhaust manual pressure pump to let the diesel oil enter the machine through the filter.
Connect the inlet and outlet pipes and gate valves of the water pump, close the gate valves of the outlet pipes, the outlet pressure gauges and the vacuum pressure gauges;
Water is pumped or vacuumed into water pumps and inlet pipes, and the air inside is emptied.
Open the external circulating cooling water valve;
At the inlet valve fully open, the water valve closed cases, starting diesel pumps, when the diesel engine reaches normal speed, then gradually open the valve outlet pipe road, and adjust to the desired operating mode.
