2000 Cubic Mobile Water Pump Unit 16 Inches Without Blockage Flood Control

Our Product Introduction

more products please visit us on enginedieselgenerator.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Water Pump Generator Set
- Certification: ISO9001
- Model Number: FM50GF
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Plywood Package
- Delivery Time: 1-2week
- Payment Terms: FOB T/T
- Supply Ability: 1000

Product Specification

- Noise Level: $\leq 75\text{dB}$
- Power: 10kW
- Start Mode: Electric
- Warranty: 1 Year
- Voltage: 220V
- Frequency: 50Hz
- Product Name: Water Pump Generator Set
- Certificate: ISO9001
- Highlight: 2000 Cubic Mobile Water Pump,
2000 Cubic Water Pump Unit,
16 inch water pump Without Blockage

Product Description

2000 Cubic Mobile Pump Manufacturer Direct 16 Inches Without Blockage Diesel Pump Flood Control Drought Drainage

Product Description:

Our Water Pump Generator Set is an ideal solution for providing reliable power in a variety of applications, such as irrigation, firefighting and more. This diesel generator is known for its low noise level of $\leq 75\text{dB}$, providing quiet operation in any location. It features an efficient design with a dimension of $1000*600*800\text{mm}$ and a speed of 3000rpm . Our water pump generator set is easy to use and maintain, and is the perfect choice for reliable and cost-effective power solutions.

The Water Pump Generator Set is powered by diesel fuel, making it a cost-effective option for many applications. It features a reliable design with a low noise level, making it ideal for use in any location. The compact design of $1000*600*800\text{mm}$ offers a great solution for those with limited space and the 3000rpm speed ensures reliable operation. Our water pump generator set is built to last, providing reliable power for your needs.

For those looking for a reliable and cost-effective power solution, our Water Pump Generator Set is the perfect choice. This diesel generator is designed with a low noise level of $\leq 75\text{dB}$, providing quiet operation in any location. It features a compact design with a dimension of $1000*600*800\text{mm}$ and a speed of 3000rpm , making it an ideal choice for those with limited space. Our water pump generator set is powered by diesel fuel, making it a cost-effective solution for many applications.

Features:

Product Name: Water Pump Generator Set

Application: Irrigation, Firefighting, Etc.

Voltage: 220V

Certificate: ISO9001

Frequency: 50Hz

Applications:

Water Pump Generator Set is a diesel generator set powered by diesel engine and water pump unit. It is a reliable and cost-effective solution for providing electricity. The product is manufactured by **Water Pump Generator Set**, with model number **FM50GF**. It has passed ISO9001 certification and is offered with a minimum order quantity of 1. The price of the product is 1000 USD and it is packaged in plywood package for safe delivery. The delivery time is 1-2 weeks and the payment terms are FOB T/T. The supply ability is 1000 and the dimension of the product is $1000*600*800\text{mm}$. The product is also backed by a 1-year warranty. The fuel used for this product is diesel and the noise level is $\leq 75\text{dB}$.

The Water Pump Generator Set is suitable for a variety of applications such as industrial, agriculture, commercial, and residential. It is highly efficient and reliable, making it ideal for powering equipment, emergency backup, and standby power. The product is also suitable for remote locations due to its low noise level, making it an excellent choice for **Diesel Generator**, **Diesel Engine Pump Unit**, and **Diesel Generator Set**. With its easy to use features, Water Pump Generator Set is the perfect choice for any power needs.

Customization:

Water Pump Generator Set – Customized Service

Are you in need of a generating set with Diesel Engine Pump Unit? This Water Pump Generator Set is your perfect choice. It is certified with ISO9001 and comes with a minimum order quantity of 1. You can buy it for 1000USD and it will be delivered in 1-2 weeks after payment terms of FOB T/T. The supply ability is 1000 and it runs on diesel fuel with the dimension of $1000*600*800\text{mm}$. The start mode is electric and the frequency is 50Hz – all of which makes it perfect for irrigation and firefighting applications.

Support and Services:

Water Pump Generator Set Technical Support and Service

We are committed to providing the highest quality technical support and service for our Water Pump Generator Set. Our qualified technicians are on hand to answer any questions or concerns you may have regarding installation, operation, maintenance, and repair of our equipment.

Our team of technicians is available 24/7, and can provide over-the-phone support, on-site service, and convenient online resources. We have a wide range of parts and components available, as well as comprehensive documentation, to ensure a smooth experience when using our Water Pump Generator Set.

If you ever experience any issues with your equipment, please feel free to contact us directly. Our team of experts is always available to help you find the best solution quickly and efficiently.

Packing and Shipping:

Packaging and Shipping

The Water Pump Generator Set will be packed in a sturdy box, protected using foam inserts. The box will be placed inside an additional shipping box for further protection and to ensure the product arrives in perfect condition.

The package will be shipped via a reliable carrier with full insurance and tracking.

FAQ:

Q&A on Water Pump Generator Set

Q1. What is the brand of water pump generator set?

A1. The brand of water pump generator set is Water Pump Generator Set.

Q2. What is the model number?

A2. The model number is FM50GF.

Q3. Where is it made?

A3. It is made in China.

Q4. What certification does it have?

A4. It has ISO9001 certification.

Q5. What is the minimum order quantity?

A5. The minimum order quantity is 1.

---------------------	------

Diesel pump

Diesel engine water pump to denote powered by diesel engines, pumps by elastic coupling driven by diesel engine, with advanced and reasonable structure, high efficiency, good cavitation

performance, little vibration, low noise, smooth operation, reliable and convenient installation.

Type power diesel engine driven pump (or fire pump group) by horizontal centrifugal pump and diesel engine, electrical instruments, such as equipment, installed in a public security closely chassis, through the line of control and signal lines connected to the electric cabinet.

Use

Used for fire fighting standby main pump, called XBC diesel fire pump;

Used for industrial emergency use, such as boiler feed water, high temperature feed water, etc.

ZCSB is used for agricultural irrigation in areas without power supply.

Operation requirements

When preparing to start the diesel engine water pump for the first time, check the installation of all equipment and start the engine according to the following requirements:

Inject the engine oil into the diesel engine and pump suspension from the oil inlet and check the oil level with the oil gauge to meet the required height.

Add cooling water from the expansion tank to the diesel engine, and it is advisable to increase the water level to 2/3 of the expansion tank height.

Install diesel fuel in the fuel tank and press the exhaust manual pressure pump to let the diesel oil enter the machine through the filter.

Connect the inlet and outlet pipes and gate valves of the water pump, close the gate valves of the outlet pipes, the outlet pressure gauges and the vacuum pressure gauges;

Water is pumped or vacuumed into water pumps and inlet pipes, and the air inside is emptied.

Open the external circulating cooling water valve;

At the inlet valve fully open, the water valve closed cases, starting diesel pumps, when the diesel engine reaches normal speed, then gradually open the valve outlet pipe road, and adjust to the desired operating mode.
