

3000rpm Self Priming Diesel Water Pump

Basic Information

- Place of Origin: CHINA
- Brand Name: Water Pump Generator Set
- Certification: ISO9001
- Model Number: FM50GF
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Plywood Package
- Delivery Time: 1-2week
- Payment Terms: FOB T/T
- Supply Ability: 1000

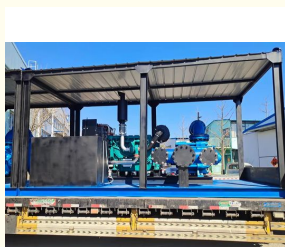

Product Specification

- Dimension: 1000*600*800mm
- Application: Irrigation, Firefighting, Etc.
- Speed: 3000rpm
- Weight: 500kg
- Frequency: 50Hz
- Start Mode: Electric
- Noise Level: ≤75dB
- Warranty: 1 Year
- Highlight: 3000rpm Self Priming Diesel Water Pump , 3000rpm diesel water pump unit

Product Description

Diesel Engine Self - Priming Farm Flood Irrigation Pump, Pumping Machine

Product Description:

The Water Pump Generator Set is a Water Pump Use Generator with Mobile Trailer that offers superior performance. It has a low noise level of $\leq 75\text{dB}$, making it ideal for use in environments where noise reduction is important. In addition, its lightweight design of 500kg makes it easy to transport and install. The generator set also offers high speed of 3000rpm and 10kW of power, making it suitable for a variety of applications. Moreover, it operates on a voltage of 220V, making it easy to use in a variety of environments. This Water Pump Generator Set is an ideal choice for those looking for a reliable, low-noise, and lightweight water pump generator set with high speed and 10kW of power. With its superior performance and easy installation, it is the perfect solution for your water pump needs.

Features:

Product Name: Water Pump Generator Set

Weight: 500kg

Noise Level: $\leq 75\text{dB}$

Power: 10kW

Dimension: 1000*600*800mm

Cooling System: Water Cooled

Generating Set: Diesel Engine Pump Unit

Applications:

The Water Pump Generator Set, Model Number FM50GF, is a Diesel Engine Pump Unit and Diesel Generator combined offering 10kW of power. It is certified with ISO9001, and has a minimum order quantity of one unit. The price for this generator set is 1000USD, and includes Plywood Package for delivery. The delivery time is 1-2 weeks, and the payment terms are FOB T/T. The Supply Ability for this product is 1000 units. It is powered by Diesel and has an Electric start mode. Additionally, it comes with a 1 Year Warranty. The Water Pump Generator Set is a reliable and efficient power solution for a variety of applications. It is an ideal choice for outdoor events, construction sites, agricultural operations, and emergency backup power needs. It is designed to deliver consistent performance with low fuel consumption. The Water Pump Generator Set is built with superior components and quality materials, making it a durable and dependable choice for long-term use. It is certified with ISO9001, ensuring the highest quality standards are met. With its 1 Year Warranty, you can be sure that it will continue to provide reliable performance for years to come.

Customization:

Water Pump Generator Set

Brand Name: Water Pump Generator Set

Model Number: FM50GF

Place of Origin: CHINA

Certification: ISO9001

Minimum Order Quantity: 1

Price: 1000USD

Packaging Details: Plywood Package

Delivery Time: 1-2week

Payment Terms: FOB T/T

Supply Ability: 1000

Certificate: ISO9001

Start Mode: Electric

Power: 10kW

Weight: 500kg

Voltage: 220V

Generating Set: Diesel Engine Pump Unit, Diesel Generator Set

Support and Services:

Water Pump Generator Set Technical Support and Service

We provide technical support and service for water pump generator sets, including installation, commissioning, repair, maintenance, training and spare parts supply. Our technical team consists of experienced engineers and technicians, and we are committed to providing you with timely and professional services.

We take pride in our service quality and are dedicated to meeting customer demands. We guarantee that all our work is completed to the highest standards and we provide a full range of services to ensure that your water pump generator set is always running at its best.

We are also committed to providing prompt and reliable technical support in the event of any malfunctions or breakdowns. Our team is always available to provide advice and assistance, helping you to maintain the longevity of your water pump generator set.

Packing and Shipping:

Packaging and Shipping for Water Pump Generator Set:

The Water Pump Generator Set is packed in a wooden box and strapped onto a pallet for shipping. The wooden box is lined with foam to provide additional protection during transport. The pallet is secured and shrink-wrapped to ensure that the box remains intact during transit.

FAQ:

Q: What is the brand name of the Water Pump Generator Set?

A: The brand name is Water Pump Generator Set.

Q: What is the model number of the Water Pump Generator Set?

A: The model number is FM50GF.

Q: Where is the Water Pump Generator Set from?

A: The Water Pump Generator Set is from China.

Q: What is the minimum order quantity for the Water Pump Generator Set?

A: The minimum order quantity for the Water Pump Generator Set is 1.

Q: What is the price of the Water Pump Generator Set?

A: The price of the Water Pump Generator Set is 1000USD.

Diesel pump

Diesel engine water pump to denote powered by diesel engines, pumps by elastic coupling driven by diesel engine, with advanced and reasonable structure, high efficiency, good cavitation performance, little vibration, low noise, smooth operation, reliable and convenient installation.

Type power diesel engine driven pump (or fire pump group) by horizontal centrifugal pump and diesel engine, electrical instruments, such as equipment, installed in a public security closely chassis, through the line of control and signal lines connected to the electric cabinet.

Use

Used for fire fighting standby main pump, called XBC diesel fire pump;

Used for industrial emergency use, such as boiler feed water, high temperature feed water, etc.

ZCSB is used for agricultural irrigation in areas without power supply.

Operation requirements

When preparing to start the diesel engine water pump for the first time, check the installation of all equipment and start the engine according to the following requirements:

Inject the engine oil into the diesel engine and pump suspension from the oil inlet and check the oil level with the oil gauge to meet the required height.

Add cooling water from the expansion tank to the diesel engine, and it is advisable to increase the water level to 2/3 of the expansion tank height.

Install diesel fuel in the fuel tank and press the exhaust manual pressure pump to let the diesel oil enter the machine through the filter.

Connect the inlet and outlet pipes and gate valves of the water pump, close the gate valves of the outlet pipes, the outlet pressure gauges and the vacuum pressure gauges;

Water is pumped or vacuumed into water pumps and inlet pipes, and the air inside is emptied.

Open the external circulating cooling water valve;

At the inlet valve fully open, the water valve closed cases, starting diesel pumps, when the diesel engine reaches normal speed, then gradually open the valve outlet pipe road, and adjust to the desired operating mode.
