

150kva Cummins Generator Six Cylinder Low Noise Cummins Silent Power Generator

Our Product Introduction

more products please visit us on enginedieselgenerator.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Cummins Diesel Generators
- Certification: ISO9001
- Model Number: FM1000KW
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Plywood packing
- Delivery Time: 3-5 weeks
- Payment Terms: T/T
- Supply Ability: 1000

Product Specification

- Fuel Consumption: Low
- Frequency: 50/60 Hz
- Cooling System: Air/Water Cooled
- Fuel Type: Diesel
- Noise Level: Low
- Alternator: Brushless
- Emission Standard: EPA Certified
- Maintenance: Easy
- Highlight: 150kva Cummins Generator Six Cylinder,
150kva Cummins Generator Low Noise,
150kva Cummins Silent Power Generator

Product Description

150kVA Generator Set with Cummins Engine Sixty Cylinder Silent Low Noise

Product Description:

Cummins Diesel Generators are diesel powered generator sets, with low fuel consumption and EPA certified emission standard. With a speed of 1500/1800 Rpm, and available in voltages of 120/240/480V, they are equipped with a brushless alternator. These Cummins Diesel Generators are ideal for providing reliable power in a variety of applications and environments. They are designed and proven to provide maximum performance and the highest efficiency, even in the toughest of conditions. With advanced technology and quality components, Cummins Diesel Generators ensure consistent, reliable, and cost-effective power. They are designed to meet the needs of a wide range of customers, from residential to commercial to industrial applications.

Features:

Diesel Power Generator Set: Cummins Diesel Generators are easy to maintain and offer air/water cooled cooling system, brushless alternator, digital controller, and voltage of 120/240/480V.

General Diesel Generator: Cummins Diesel Generators are specifically designed to provide a reliable source of power. They feature an easy maintenance system, air/water cooled cooling system, brushless alternator, digital controller, and voltage of 120/240/480V.

Electric Diesel Generators: Cummins Diesel Generators are designed to provide a reliable source of power for industrial and commercial applications. They have an easy maintenance system, air/water cooled cooling system, brushless alternator, digital controller, and voltage of 120/240/480V.

Technical Parameters:

Technical Parameters	Description
Speed	1500/1800 Rpm
Cooling System	Air/Water Cooled
Warranty	1-2 Years
Fuel Type	Diesel
Fuel Consumption	Low
Maintenance	Easy
Controller	Digital
Noise Level	Low
Durability	High
Emission Standard	EPA Certified

Applications:

Cummins Diesel Generators, with the brand name of Cummins, the model number of FM100KW, and certified by ISO9001, have a minimum order quantity of 1 set and a price ranging from US\$ 7500-8500 (FOB Price). The package is Plywood packing, and the delivery time is 3-5 weeks after payment through T/T. The supply ability is up to 1000 sets. The Cummins Diesel Generators feature voltage of 120/240/480V, 1-2 years warranty, EPA Certified emission standard, low noise level, and 50/60 Hz frequency. Cummins Diesel Generators are also compatible with Cummins Diesel Truck Engines and Cummins Diesel Engine Parts.

Customization:

Cummins Diesel Generators

Brand Name: Cummins Diesel Generators

Model Number: FM100KW

Place of Origin: CHINA

Certification: ISO9001

Minimum Order Quantity: 1

Price: US\$ 7500-8500 / Set(FOB Price)

Packaging Details: Plywood packing

Delivery Time: 3-5 weeks

Payment Terms: T/T
Supply Ability: 1000
Voltage: 120/240/480V
Durability: High
Power Output: 5-3000 KW
Maintenance: Easy
Controller: Digital
Keywords: Cummins Diesel Engine Parts, Diesel Generators Sets, Diesel Power Generator Set

Support and Services:

Cummins Diesel Generators Technical Support and Service

We provide experienced technical support and service for Cummins Diesel Generators. Our team of experts can help you with installation, troubleshooting, maintenance, and repairs. We also offer preventive maintenance plans to help ensure your generators are running optimally and are ready when you need them. With our extensive knowledge and experience, we can find the best solutions for any problems you may have.

We are dedicated to providing top-notch customer service, and our goal is to provide the highest quality service available. Our highly trained technicians and engineers are available 24/7 to answer any questions you may have. We can also provide you with detailed reports and analytics to help optimize your Cummins Diesel Generators performance.

For more information about Cummins Diesel Generators Technical Support and Service, please contact us today.

Packing and Shipping:

Cummins Diesel Generators are securely packaged to ensure safe delivery. Each generator is packed in a wooden crate with bubble wrap and foam padding to provide extra cushioning. Our packaging is designed to protect the generator from any kind of damage during shipping. We also provide additional straps and tie-downs to keep the generator secure during transit.

Once the generator is packaged, it is ready for shipping. We use reliable carriers to ship our generators to their destination. Depending on the destination, we offer a variety of shipping options such as ground, air, and sea. We always make sure to provide tracking information to our customers so they can monitor the progress of their shipment.

FAQ:

Q1: What is the brand name of the Cummins Diesel Generators?
A1: The brand name is Cummins Diesel Generators.

Q2: What is the model number of the Cummins Diesel Generators?
A2: The model number is FM100KW.

Q3: What is the place of origin of the Cummins Diesel Generators?
A3: The place of origin is China.

Q4: What is the certification of the Cummins Diesel Generators?
A4: The certification is ISO9001.

Q5: What is the minimum order quantity of the Cummins Diesel Generators?
A5: The minimum order quantity is 1.

Weichai Series Diesel Generators Features

In the last 70 years, more than 3 million diesel engines have won the respect and recognition of customers. Weichai Engine overhaul period for an average of 30000 hours the spin to the pennants lightweight air filter, under the beautiful shape of the screw supercharger, to optimize the design of the piping products meet the road the second stage, the three phase motor load ability, meet the requirements of the load mutation mining low noise, small vibration using enhanced fuel injection pump, increase the oil pressure, high temperature, engine experience plateau alpine baptism - 10 ° no auxiliary measures can be successfully started. Supporting power 15KW-1200KW.
